

External Course Schedule June – August 2021

Course Schedule

As we continue to work through the COVID-19 pandemic, Aerospace University has virtualized in-person courses, and will be postponing any that are unable to be offered as a fully virtual experience. This limits the amount of classes currently offered to government customers; those available can be found below. Due to the frequency of additions and updates, this schedule will be updated quarterly. Government customers must first apply for a TLC account, and then can register for courses after receiving their online credentials.

Please come back soon to check for more upcoming FY21 course offerings! We appreciate your continued support.
