

External Course Schedule September – November 2021

Course Schedule

As we continue to work through the COVID-19 pandemic, Aerospace University has virtualized in-person courses, and will be postponing any that are unable to be offered as a fully virtual experience. Courses currently offered to government customers can be found below. Due to the frequency of additions and updates, this schedule will be updated quarterly. Please come back soon to check for more upcoming FY22 course offerings! We appreciate your continued support.

To get an account with the Talent and Learning Center (TLC), an Aerospace point of contact (POC) must verify the customer meets the eligibility requirements. Talk with your Aerospace POC to start this process!

Virtual
